

Human Embryonic Stem Cell (hESC) Lines

- CIRM's list of acceptably derived lines: Research institutions have certified these lines are derived in accordance with CIRM regulations. All listed line are eligible for use in CIRM-funded research.
- Lines previously approved by NIH prior to March 2009: All listed lines are eligible for use in CIRM-funded research.
- NIH Human Embryonic Stem Cell Registry: All listed line are eligible for use in CIRM-funded research.
- UK Stem Cell Bank: All listed lines are eligible for use in CIRM-funded research.
- BioTime Lines: CIRM has previously entered into a letter of agreement with Biotime to provide research grade human embryonic stem cell lines to California researchers. **This MTA has expired. Please contact Biotime to negotiate a similar agreement.** Biotimes cell lines ESI-014, ESI-017, ES1-035, ES1- 051 & ES1- 053 are listed on the NIH Human Embryonic Stem Cell Registry and therefore eligible for use in CIRM-funded research. The complete genome sequence files for those lines is available on the BioTime homepage.
